Some more ways to code

Wayland Coding for Adults
30 November 2017

What do you want to code?

Web site design

**Data analysis And Data Science**

Web applications

Mobile apps

...and more!

Explore computing with tiny computers and microcontrollers

Web site design

HTML

CSS

JavaScript

Many tools available to help with the work

Web applications

Often have a web server, application code, and a database

Java

Javascript

Python

PHP

SQL (Structured Query Language, for databases)

Mobile apps

iOS

Swift

Objective-C

HTML/CSS/Javascript

Need a Mac for development

Android

Java

HTML/CSS/JavaScript

Data science

Python

R

Raspbery Pi and Arduino

Arduino Microcontroller

C/C++

Raspberry Pi
Single-board computer

C/C++

Python

Other languages

The Stuff around the Code

- Operating systems (MacOS, Windows, Linux, iOS, Android, …) and filesystems

- Development tools

  - IDEs ("Integrated development environments")

  - Editors

  - Tools for testing, debugging, etc.

- Cloud systems

- Databases

- And more!
